Daniel Veretenov, Mahek Aggarwal, Vivian Li

The recommendation algorithm uses the Euclidean distance which is calculated based on the features of the songs. These features include popularity, danceability, tempo, and etc. The top 5 similar songs that are not by the same artist and not the song itself are returned by the query. The top 5 similar songs will have the shortest Euclidean distance. Our graph model consists of 25,787 nodes and 94,697 edges.

Song: Someday
